

AC-PROOFED

The Service

AC-PROOFED is managed by Kim Hatchuel who is an experienced document formatter and proofreader.

Kim worked in the insurance industry for over 20 years and was responsible for FAIS compliance matters for eight of those, so she is well versed in the types of documents that are needed by FSPs.

Why choose AC-PROOFED

You've read your document so many times - and you're so familiar with it - that you don't see the mistakes.

You aren't good with grammar.

Document set-up isn't your forté!

You don't have the time to check your document carefully.

You'd rather be doing something else!

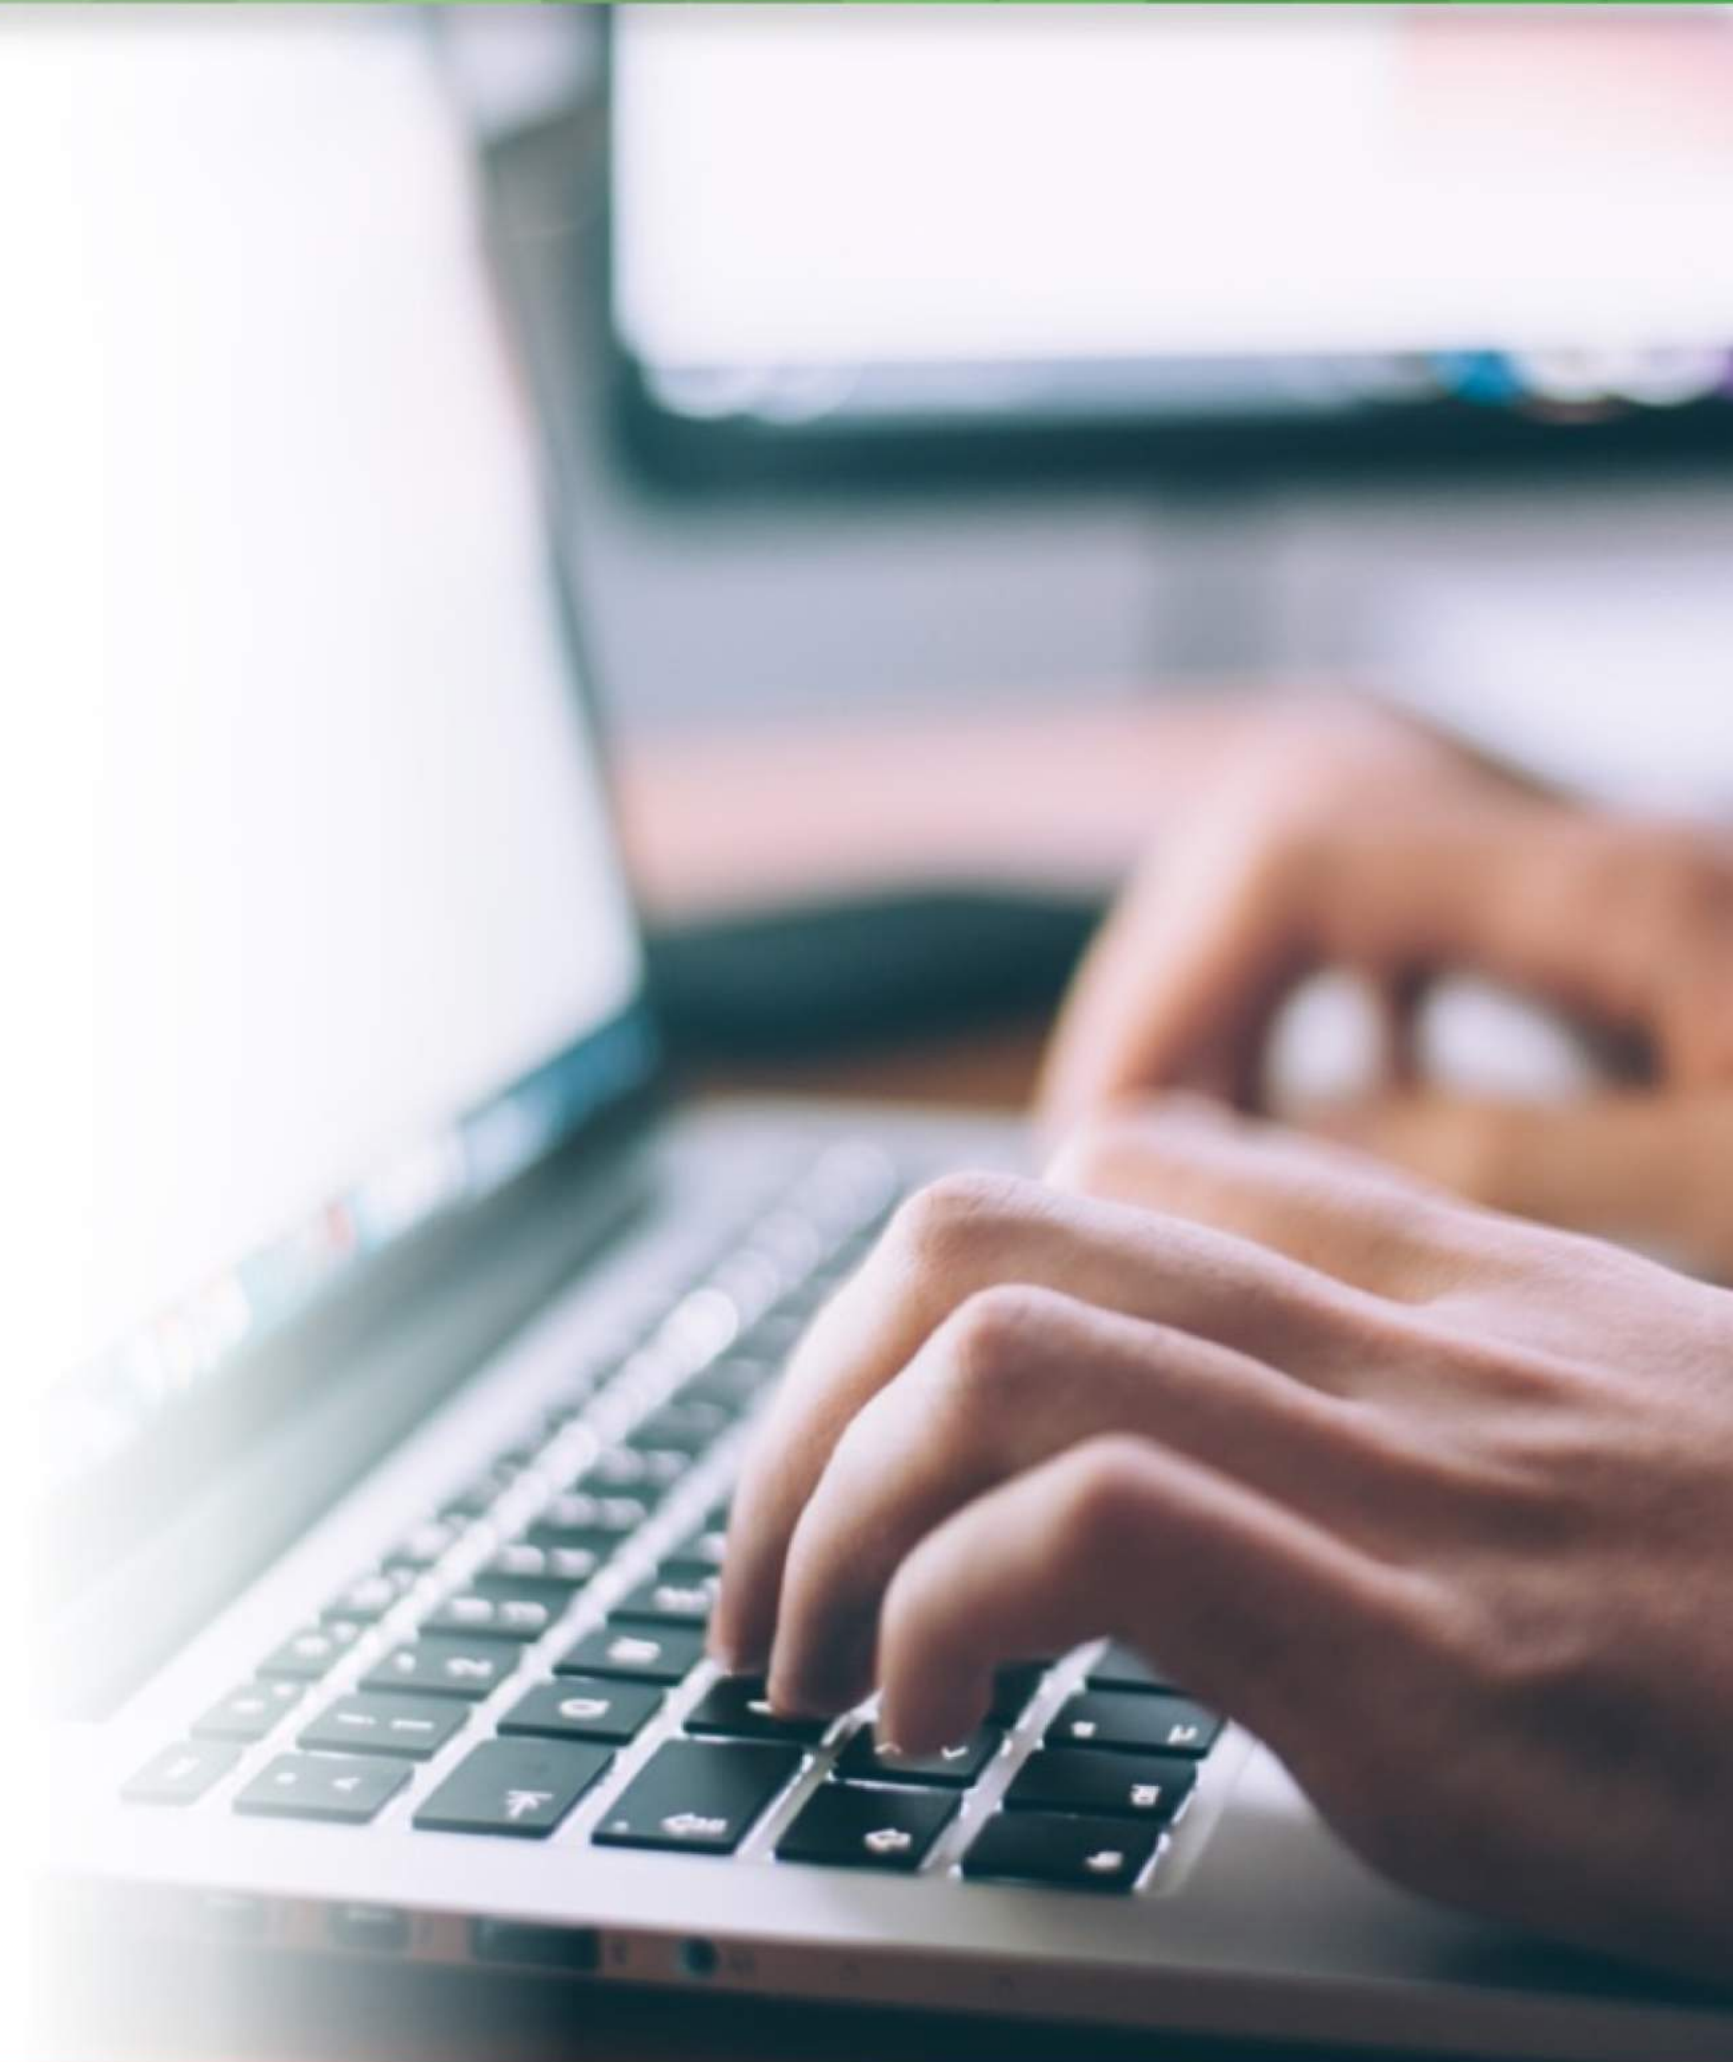

Other Services

AC-Proofed is also able to provide quality proofreading and editing services, and improve the readability of **other written media**, including:

- **Company reports**
- **Brochures**
- **Speeches and presentations**
- **Letters**
- **General office documents**

If you need any assistance with document set-up and formatting (**including things like tables and mail merges, etc.**), AC-Proofed can assist with this too.

What does it cost?

Proofreading at
25 cents per word

Document formatting at
R25 per page
